WEAVING SKILL LEVELS:

Please evaluate your skill level, not only for your total weaving experience, but also for your experience using the techniques offered in the classes you are considering. Remember it is not fair to the instructor or the other students to take a class that you are not ready to handle.

All Levels	These classes are offered to students of all skill levels from Beginner to Advanced
Beginner	Weavers have little or no weaving experience having woven only a few baskets. They need more practice with basic weaving techniques, bases and shaping. These weavers are becoming proficient in basic weaving techniques, including over/ under weaving, start/stop weaving, twining, and rim lashing. They are learning to control shape and will be introduced to new pattern weaves such as twill, different twinning methods, and rim and handle finish variations. Please Note: Additionally, if you consider taking a class in a material you have never used, you will be considered a beginner in that class.
Intermediate weavers	Weavers have gained proficiency in weaving techniques. They can begin with ease and have mastered several weaving techniques. They do not have difficulty setting up bases, twining, completing over/under weaves and creating rims using the materials offered in a class.
Advanced weavers	Weavers are proficient. They have mastered weaving techniques and are ready to take on more challenging projects. Teachers are confident these students have achieved this skill level when attending class. Basic skills are not reviewed due to time constraints. These weavers can design baskets on their own but require new challenges.

Thursdays Baskets

<p>TH01 12:00 PM - 9:00 PM Onions by Pam Milat \$50.00</p> 	<p>Intermediate HRS: 8 Size: 12-14"H x 10"</p>	<p>This fun weave is entirely woven of round reed. Students will twine their way to the rim, learning how to flair, shape the bowl, and then come in to create a neck. After adding a handle, students will finish with a simple braided rim. The completed heavy duty basket will easily hold 4-6# of onions or potatoes. Not all students will finish in class but will have materials and instructions to do independently.</p>
<p>TH02 12:00 PM - 9:00 PM Betting On You by Dan \$7</p> 	<p>Intermediate HRS:8 Base is 9" x 9", 11" tall not including horseshoe handles, 33.5" circumference</p>	<p>When placing a bet at the Kentucky Derby, there are so many records and stats to study and consider. This includes the path that brought those horses from remote pastures to the starting gate. It doesn't take much for me to see the similarities for us. As people, who have lived a lot of years that included high of highs and low of lows; as people, who have lost much and suffered through hard seasons; as people, who fought for health both mental and physical; and as people, we often forget to pause and breathe and see that we are all people on a path. At times, fighting to get to the starting gate; and at other times, fighting to get out of the starting gate.No matter what season of life we are in right now, I hope and pray for each of us to have the courage and tenacity to fight the good fight. At times, we all need a reminder from our cheering section; so here and now, I am yours. I hope when you see this basket you will think about me cheering you on as you race around the track. I'm Betting On You because your path has (and continues to be) a proven track record of staying in the race no matter what is thrown at you. Pandemic, polar vortex ice storm, broken bones, scary diagnosis... I'm Betting On You to give it your all, and I promise to be giving it my all right alongside you.</p>

Shaping is the "name of the game" for Hawthorne. Students will learn how to expand the circumference as well as bringing it in with ease. A very simple technique will be taught to enable students to have confidence when they meet a shaping basket. Be sure to bring a shaver, cable ties and patience.

A graceful basket reproduction of a popular style of the Shaker baskets but with a modern "twist". Using double amounts of natural and dyed reed equals a very thick basket. Poppins by
Dani Sue Anderson

Intermediate
 HRS:5
 5" tall, 8" diameter
 at the top, 30"
 circumference

It's easy to understand why I would have Poppins on my mind while designing a basket. However, what I've learned with all this Poppins-watching has been very good for me during this hard and stretching pandemic season. First, it means I get cuddles with my girls while watching; but the movie brings a lot of chaos into order, just like in the original Mary Poppins movie. She snaps her fingers, and toys go into place and beds get made. In Mary Poppins Returns, they all end up swimming into the bathtub and have a lovely time while Poppins sings...

In both movies, the families had fallen on hard times – can you relate? I think it's very safe to say we have collectively fallen on hard and unusual times, as everything drastically changed for each of us. But just like Poppins comes in and brings class and charm to any rooms she's in, I think this basket does the same. I designed it to have character and to be a bit whimsical. If you remember, the families live on Cherry Blossom Lane; hence the color I used for this original basket.
